

The Fuji Declaration

Igniting the Divine Spark for a Thriving World

The 2015 Symphony of Peace Prayers at Fuji Sanctuary marked the official inauguration of the Fuji Declaration—a declaration for the future of humanity and the planet Earth. Endorsed by scientists, humanitarians, spiritual leaders, educators and others from around the world, the Fuji Declaration calls on all of us to seek out our innate, sacred consciousness—our divine spark—in order to transform our civilization and create lasting peace on earth.

The Fuji Declaration and the Symphony of Peace Prayers belong to all of us—all human beings from all walks of life, so that together, we can raise our global consciousness and begin to live by a new set of values, in harmony with nature and all life on earth. Through the SOPP, let us celebrate and embrace this declaration, forging ahead together on the path to a flourishing planetary civilization.

A Worldwide Celebration of *harmony and oneness*

The Symphony of Peace Prayers is a global event that brings together people from different faiths and spiritual traditions to pray with one voice for peace on earth. It is celebrated each year by many thousands of people, on every continent. In 2013, an SOPP ceremony took place at the United Nations, and in 2015, the SOPP was the venue for the inauguration of the Fuji Declaration, bringing the event to a new stage in its evolution, part of a global wave of consciousness transformation.

Fuji Sanctuary — home of the SOPP

Set in the foothills of magnificent Mount Fuji in Japan, Fuji Sanctuary is the home of Byakko Shinko Kai, an international grassroots organization dedicated to world peace and the elevation of humanity's consciousness through prayer and other easily accessible spiritual practices. Since the 1980s, Fuji Sanctuary has continually hosted prayer ceremonies and other activities and initiatives for peace, including 11 SOPP ceremonies, each with several thousand participants. Today, Fuji Sanctuary is part of a global network of like-minded groups and organizations around the world.

it begins
in our consciousness

As we prepare for the Symphony of Peace Prayers, we naturally shift our thoughts toward peace.

“ Each year, when the Symphony of Peace Prayers is coming up, I can feel my consciousness changing. My behavior becomes calmer, more peaceful, and more loving, because I say to myself: the day of the event is coming, and if I don't have peace within me, how can I give peace to the world?
