Welcome

**Masami Saionji,
Chairperson of Byakko Shinko Kai**

It is my great pleasure to welcome you to the eleventh annual Symphony of Peace Prayers!

This year, in addition to the annual theme of celebrating the oneness of the human family and our cultural and religious diversity, we are also commemorating the inauguration of an initiative called *The Fuji Declaration: Awakening the Divine Spark in the Spirit of Humanity for a Civilization of Oneness with Diversity on Planet Earth*.

The Fuji Declaration was initiated by Dr. Ervin Laszlo, Hiroo Saionji, and myself, and was announced with the support of over 200 founding signatories—including several Nobel Prize Laureates—and 60 partner organizations. It is a global charter calling for the establishment of a harmonious human civilization, based on the principle that each and every human being is a sacred and marvelous existence.

Each year, as we celebrate the Symphony of Peace Prayers, praying prayers for peace from various faiths and traditions, we experience the shared sacred nature that flows within our diversity. This year, we are honored to welcome back many religious and spiritual leaders who have participated in past years. And, with the additional presence of distinguished individuals working in various fields—scientists, educators, artists, and others—we are able to proclaim the Fuji Declaration to the entire world. Nothing could give me greater joy.

Within every single person resides a precious sacred spirit. The Fuji Declaration serves as a compass to those who have awakened to this sacred spirit, guiding them in the creation of a new world. Today, here at Fuji Sanctuary, your prayers will breathe life into the words of this declaration, letting them resonate with the sacred nature in all people. From the bottom of my heart, I am sincerely grateful to have the honor of joining all of you in taking this first step forward toward a new era for humanity.

Rev. Masafumi Suzuki

Gonnegi (Priest) at Fujisan Hongu Sengentaisha Shrine
(Japan)

Prayed by Rev. Suzuki alone

(English translation)

The numerous wars that have regretfully been inscribed in the pages of history have been caused by people's forgetting to look beyond differences in ideology, faith, status, and merit and to respect all cultures, seeing one another as comrades and reflecting this in our actions.

The passing of time has brought us to this day, to this celebration at sacred Mount Fuji, where people gather in harmony and mutual benefit, making a declaration for eternal peace on earth and praying for the blessings of all the gods and goddesses.

Prayed by all participants together

Eternal Source of peace, grant all peoples of the earth peace, goodness and blessing, grace, mercy, and compassion. Bless us, our Creator, for we are united by the Light of your Presence. In that Light, Eternal One our God, You give us a Way of life: loving kindness, justice, blessing, a compassion for all life, and peace. Blessed are You, Eternal One, You are the One Who blesses all who dwell on earth with peace.

May the One Who makes Peace in the heights create peace for us, for all the household of Israel, for all the household of Ishmael, and for all humankind. And let us say: Amen.

The Eternal One blesses and keeps you always.

The Presence of the Eternal brings you Light and Graciousness.

The Eternal Presence supports you always and brings you peace.

Christianity (Protestant)

The Reverend Canon Dr. Charles P. Gibbs

Founding Executive Director Emeritus,
United Religions Initiative (USA)

Prayed by Rev. Dr. Gibbs alone

Oh gracious Giver of Life, the outflowing light of your limitless love creates and sustains this vast and awesome cosmos. Your incomparable artistry blesses humankind. This precious Earth sustains us with its abundance, inspires us with its beauty and fills us with awe at its power to destroy and create.

You ask of us only that we live in gratitude, love and sharing to honor, protect and preserve this mystery you have created. Tragically, we have fallen far short of honoring you and your creation, and of living into our true nature.

Too often, we have ripped up the beautiful blossoms of love and peace, replacing them with piercing thorns of violence and hatred. Too often, we have built dams of greed that distort the flow of your generosity, claiming too much for ourselves and denying even the barest measure of sufficiency and dignity to myriad sisters and brothers. Too often, we have embraced the plague of domination, devastating our fellow humans and desecrating this sacred Earth.

We gather before you this day in the spirit of humility and repentance. We ask for your forgiveness. We gather before you this day with deepened commitment to honor our true nature as beings of love, made in love and called to manifest love that all may live as one in sufficiency and harmony.

Inspire, guide and sustain us, oh Divine Beloved, that peace and joy may prevail in this sacred Earth community.

Prayed by all participants together

Loving One help us to become true human beings who cultivate love, peace and joy for this blessed Earth community.

Prayed by Maulana Abdul Khabir Azad alone

(English translation)

“Oh God, You are Peace, From You comes Peace, To you returns Peace. Revive us with a salutation of Peace and lead us to your abode of Peace.”

Oh Almighty God I thank you for sending Holy Prophet Muhammad (Peace Be Upon Him) on earth. He gave us the message of peace and our religion Islam is the religion of peace. Islam teaches us that we as Muslims become a source of peace blessings not only for us but for the entire world. Oh God I praise you for the different religions and their basic message of peace, harmony and acceptance of one another. As we are faced with the challenges of terrorism, hatred and a culture of violence, help us to promote a culture of peace, tolerance and unity. We as Muslims believe that you will hear our prayers and we will find its effect upon us and in the whole world. I beg you that you grant us the inspiration and guidance so that we may remain committed to this noble cause and promote it in our societies.

Christianity (Roman Catholic)

Fr. Dr. James Channan, OP

Director, Lahore Peace Center;

Regional Coordinator, United Religions Initiative (Pakistan)

Prayed by Fr. Dr. Channan alone

Most loving and kind Almighty God I thank you, I praise you, I adore you and I glorify you for this grace filled opportunity which you have granted me at the foot of the Fuji Mountain in the premises of Fuji Sanctuary, where people of many different religions, spiritual traditions, ethnic backgrounds and countries have gathered to pray. I can see your beauty, loving care and peace in all of them. We are gathered to pray for peace and harmony in our hearts and around the globe. I believe that whatever I ask, you grant as you have assured through your son Jesus Christ who said:

“Ask, and it will be given to you; search, and you will find; knock, and the door will be opened to you. Everyone who asks receives; everyone who searches finds; everyone who knocks will have the door opened.” (Matthew 7:7-8)

Almighty God I do very humbly request that our Symphony of Peace Prayers may reach you. I pray there they may be no more violence in the world, no more war in the world, no more discrimination in the world. Grant that all of us may live like a family and that peace, love and tolerance may flow from our lives.

Heavenly Father, help us to act upon the Fuji Declaration. Inspire and guide us to play our full role in bringing healing, reconciliation, justice and peace on earth. I ask and offer this prayer through our Lord Jesus Christ who lives and reigns with you in unity of the Holy Spirit one God for ever and ever. Amen!

Prayed by Rev. Sasaki alone

(English translation)

Saicho, a great teacher and the founder of the Tendai Sect of Buddhism, said:

When we take revenge, our hatred still remains. When we face our hatred with love and benevolence, it is sure to disappear.

Do not make a statue or copy a sutra for me after I die. Please follow my will to spread the teachings of Mahayana Buddhism.

If you devote yourself to pursuing and spreading the Buddhist teachings, your basic needs will be provided. If you pursue profit and pleasure, you will never know the Buddhist way.

Since I was born, I have spoken no harsh words and committed no violent acts. To you, my fellow monks, I ask that you never hurt those who are below you. For my sake, please strive to adhere to this principle.

Though I will die here in Japan, I am not leaving Japan forever. I will be born in this country again and again, to master the Buddhist teachings and bring them to every corner of the world. If you share my will, do not grieve for me. Continue your studies and training, and await the day we will be born here again. Let us join hands and devote ourselves to our country and to the Buddhist way.

AWAKENING THE DIVINE SPARK IN THE SPIRIT OF HUMANITY

For a Civilization of Oneness with Diversity on Planet Earth

A new phase in the evolution of human civilization is on the horizon. With deepening states of crisis bringing unrest to all parts of the world, there is a growing need for change in our ways of thinking and acting. We now have the choice of either spiraling into deepening peril, or breaking through to a world of dignity and wellbeing for all.

Throughout its history, humanity has been guided primarily by a material consciousness. Fearing scarcity, we have continued to pursue material gain beyond necessity, taking from others and depleting the Earth's natural resources. If our aspirations continue to focus only on what is material and finite, our world will face inevitable destruction.

What is our true nature?

In order to make more enlightened choices and change the course of our history, we need to return to the basic question concerning human life. Each and every one of us must ask, "What is our true nature?" and seek a meaningful and responsible answer.

The great spiritual traditions of the world have always been telling us that, at its root, human life is inextricably linked to its universal source. Today, the latest advances in the physical and life sciences reaffirm this perennial insight. When we rediscover our connections to nature and the cosmos, we can re-align our life with the universal movement toward oneness and harmony in and through diversity. We can restore the divine spark in the human spirit and bring forth our innate love, compassion, wisdom, and joy to live a flourishing life. The time has come for every one of us to awaken the divine spark that resides in our heart.

What is the purpose of our existence?

We have been born at a critical juncture in history, in a world in transition, where it is possible to guide the advancement of humankind toward peace on Earth. Living peace and enabling peace to prevail on Earth is the ultimate purpose for all of us. We can and must embrace it in every sphere of our existence.

By living consciously and responsibly, we can draw upon our inherent freedom and power to shape our destiny and the destiny of humankind. Our task is to collaboratively create a world of dignity and compassion that unfolds the full potential of the human spirit—a world in which every individual gives expression to his or her highest self, in service to the human family and the whole web of life on the planet.

Toward a new civilization

It is imperative to bring together individuals from diverse fields—scientists, artists, politicians, business leaders, and others—to create a solid multidimensional foundation for catalyzing a timely shift in the course of history. The time has come for all people to become courageous pioneers—to venture beyond their personal, cultural, and national interests and beyond the boundaries of their discipline, and to come together in wisdom, spirit and intention for the benefit of all people in the human family. By so doing, we can overcome the hold of obsolete ideas and outdated behaviors in today’s unsustainable world and design a more harmonious and flourishing civilization for the coming generations.

The paradigm of the new civilization

The paradigm of the new civilization is a culture of oneness with respect for diversity. Just as the myriad cells and diverse organs of our body are interconnected by their oneness and work together in harmony for the purpose of sustaining our life, so each and every living thing is an intrinsic part of the larger symphony of life on this planet. With the conscious recognition that we are all a part of a living universe consisting of great diversity yet embracing unity, we will co-evolve with one another and with nature through a network of constructive and coherent relationships.

As individuals responsible for the future of life on Earth, we hereby declare that:

- We affirm the divine spark in the heart and mind of every human being and intend to live by its light in every sphere of our existence.
- We commit ourselves to fulfilling our shared mission of creating lasting peace on Earth through our ways of living and acting.
- We intend to live and act so as to enhance the quality of life and the well-being of all forms of life on the planet, recognizing that all living things in all their diversity are interconnected and are one.
- We will continually strive to free the human spirit for deep creativity, and to nurture the transformation necessary to forge a new paradigm in all spheres of human activity, including economics, science, medicine, politics, business, education, religion, the arts, communications and the media.
- We shall make it our mission to design, communicate and implement a more spiritual and harmonious civilization—a civilization that enables humankind to realize its inherent potential and advance to the next stage of its material, spiritual, and cultural evolution.
