

Celebrating the 1st Anniversary of the Fuji Declaration

Soul of WoMen Global Campaign

Grand Celebration Event on May 15, 2016 - Fuji Sanctuary, Japan

Since the Fuji Declaration was officially inaugurated in May 2015, tens of thousands of people from around the world have signed and embraced the declaration, affirming the divine spark in every human being and the essential oneness of all life in its diversity.

As more and more people connect to their sacred consciousness, the time is ripe for these awakening women and men to arise and unite across the globe in order to foster a transformation of global consciousness and co-create a new world that manifests humanity's full potential.

Activating the Divine Feminine

The great source of life encompasses both the divine masculine and the divine feminine, which need to be balanced within each individual and in society. However, when we look at the world today, we see an imbalance in which feminine qualities are less than prevalent. For thousands of years, human history has been dominated by our masculine expressions, resulting in wars, aggression, competition and the destruction of the natural world. We can say that our systems and practices have long suppressed feminine values such as love, compassion, empathy, nurturing, intuition, cooperation, and peacemaking. It is important that these values are honored and become our guiding force for global survival and evolution at this critical juncture in history.

At the same time, the true power of the masculine must also find expression. As Martin Luther King, Jr. said, "Power without love is reckless and abusive, and love without power is sentimental and anemic." The masculine power that rules the present world is too often detached from love and takes the form of violence and aggression, while love is not regarded as a real power to effect any change.

What is most needed in our world today is to revive and activate the undermined feminine values, and to redefine and harmonize the true masculine archetype. Only when we are able to restore balance between the masculine and feminine energies, can we fully ignite the divine spark in the spirit of humanity and open the door to a new era.

As a first step, we need to open our minds and free ourselves of all prejudices and stereotypes—whether they concern gender, cultural, racial, political or religious differences, physical or mental abilities, or social status. And most importantly, we must free ourselves from the prejudice that denies the sacredness of our own life. Only when we look deep inside our hearts and work to rid ourselves of our long-held prejudices and self-limiting beliefs can we forgive and heal our past wounds. Rather than turning our long standing pain into anger, we can reclaim our true identity and step forward on the path to healing and wholeness.

Our vision is to inspire every woman and man to bring out their authentic self and share their unique gifts to co-create a new future. In oneness, we can foster a more peaceful and flourishing world for all life—a world that honors deep feminine principles in harmony with the masculine.

How it began

Masami Saionji, co-initiator of the Fuji Declaration and chairperson of the Goi Peace Foundation, invited a group of powerful women visionaries and leaders in Japan to discuss the roles, responsibilities and wisdom women possess in creating a more harmonious and balanced world. Eighteen women came together to share in a mutual desire to explore ways to unfold, empower and harness the highest feminine qualities and principles in both women and men.

The seeds have now been planted in Japan and it is time to expand this vision out to the world. Today, many individuals and groups calling for the rise of the feminine are emerging in all parts of the world. We believe it is time for all of them to come together to shift the consciousness of humanity.

Join the Soul of WoMen Global Campaign!

To coincide with the first anniversary of the Fuji Declaration, we are launching the *Soul of WoMen Global Campaign*. We are calling upon you—awakening women and men, as well as groups and organizations aligned in purpose—to join this campaign to activate the feminine wisdom and consciousness in our lives and society together with others around the world. You can join by organizing events, taking personal actions, or simply adding your ‘YES!’ to the call. This is not a campaign to fight against what’s wrong, but a pro-active initiative to encourage and multiply the emerging light.

Come together for the Grand Celebration – May 15, 2016

The global network will come together for the grand celebration at the Symphony of Peace Prayers event to be held at Fuji Sanctuary in Japan on May 15, 2016, bringing together thousands of peace-loving people and women's networks from different cultures. With synchronized events being organized around the world, this historic campaign will be particularly meaningful to bring attention to the feminine moral voice as world leaders gather in Ise-Shima, Japan for the G7 Summit at the end of May 2016.

More information on how to participate in the Soul of WoMen Global Campaign will be available on the Fuji Declaration website soon.

fujideclaration.org

The inverted W and M in our logo symbolizes the call for equality and balance between the feminine and masculine forces, the yin and the yang in humanity, nature and all living things. 'Women' and 'Men' are interwoven within one word, showing how together in harmony the feminine and masculine create a complete and whole human soul.

Soul of WoMen supports the United Nations Sustainable Development Goal #5: "Achieve gender equality and empower all women and girls."
