## *Message from the Chairperson*

It is my great pleasure to welcome all of you to the 13th annual Symphony of Peace Prayers. I would like to express my sincere gratitude for the support of the prayer leaders, distinguished guests, and everyone joining in prayer with us here at Fuji Sanctuary and around the world.

Today, our world is at a critical juncture, with volatile atmospheres building up in numerous countries. Many people no longer know what to believe, and vortexes of distrust are popping up in one place after another. In these circumstances, people who believe in humanity's divine nature and pray for world peace are the light of hope in this world.

On this day, we have many thousands of people gathered here at Fuji Sanctuary, many more joining us in prayer through SOPP ceremonies and prayer gatherings being held across the globe, and still more taking part all over the world through our live webcast. As all of you take time out from your daily lives to unite your hearts and minds on this special day, praying intently for peace on earth, a powerful light of oneness radiates from Fuji Sanctuary out to the entire world. I feel sure that this light will touch many peace-loving people in all countries, and will spark a new, divine awakening in them. As this continues to happen, I believe, peace will begin to manifest itself as a reality.

Human history has seen one civilization after another collapse in ruin, and today the world yet again faces a grave state of affairs. As we look back on the past years and decades, there have indeed been uncertain, perilous times, but we have come through them to reach this present day. It is the consciousness of each individual that gives shape to the ever-changing trends and movements of this world. In this sense, the existence of people who join hands in a spirit of oneness and work tirelessly for world peace is greater than we might imagine. It is the mission of this year's SOPP to see such people take the initiative in reviving humanity's divine spark and restoring balance between the divine feminine and divine masculine.

People whose destiny has connected them with the SOPP are people of noble intentions who, no matter what situation they find themselves in, are able to direct their consciousness toward peace. At the time, making a choice for peace may seem like only a small step forward. But as we continue to walk forward on this path, the difference becomes greater and greater, so that our small choices today lead to large-scale changes in the future.

On this day, as peace-minded people around the world focus their consciousness on thoughts of peace, our prayers will have a tremendous impact. All of you are effecting change in the world. To those gathered here at Fuji Sanctuary and at SOPP events around the world, and to all those joining with us online, let us unite our hearts and put our soul into each and every prayer for peace.

With deepest gratitude for your treasured prayers,  
Masami Saionji  
Chairperson, Byakko Shinko Kai
